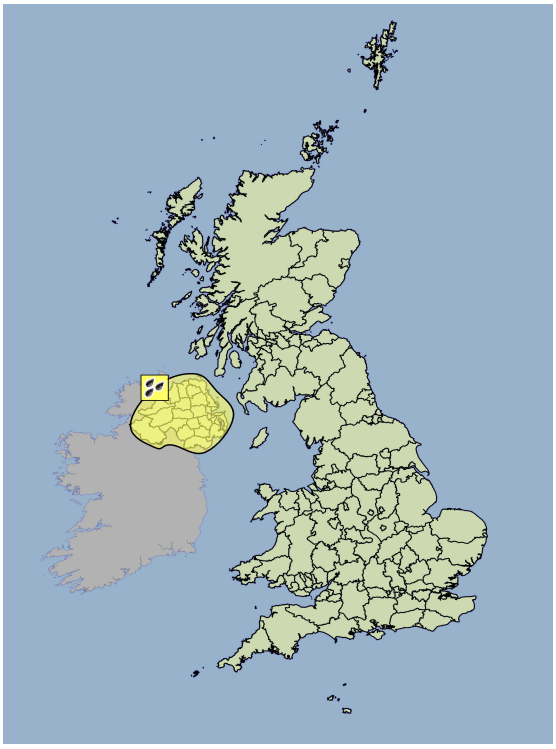
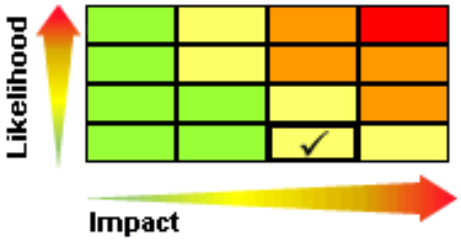
National Severe Weather Warning Service





Chief Forecasters Assessment
An unstable airmass is expected across Northern Ireland on Tuesday with heavy, thundery showers developing readily through the morning and then lasting for much of the day. As is often the case with showers, some places will escape with a dry day. However, where they do occur, they could be heavy and prolonged bringing a risk of localised surface water flooding. Rainfall amounts of 15 mm/hour are possible with a risk of 25 mm in 3 hours.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **06:00 on Tue, 05th Aug 2014** until **22:00 on Tue, 05th Aug 2014**

Heavy, and perhaps thundery, showers are expected across Northern Ireland on Tuesday. The showers could develop early in the morning with the risk then remaining for much of the day.

The public should be aware of the risk of localised flooding and potential disruption to transport and outdoor events.
